Tutorials

- Download Music from the Music App / Web Player
- Tools on TuneCable iMazon Recorder

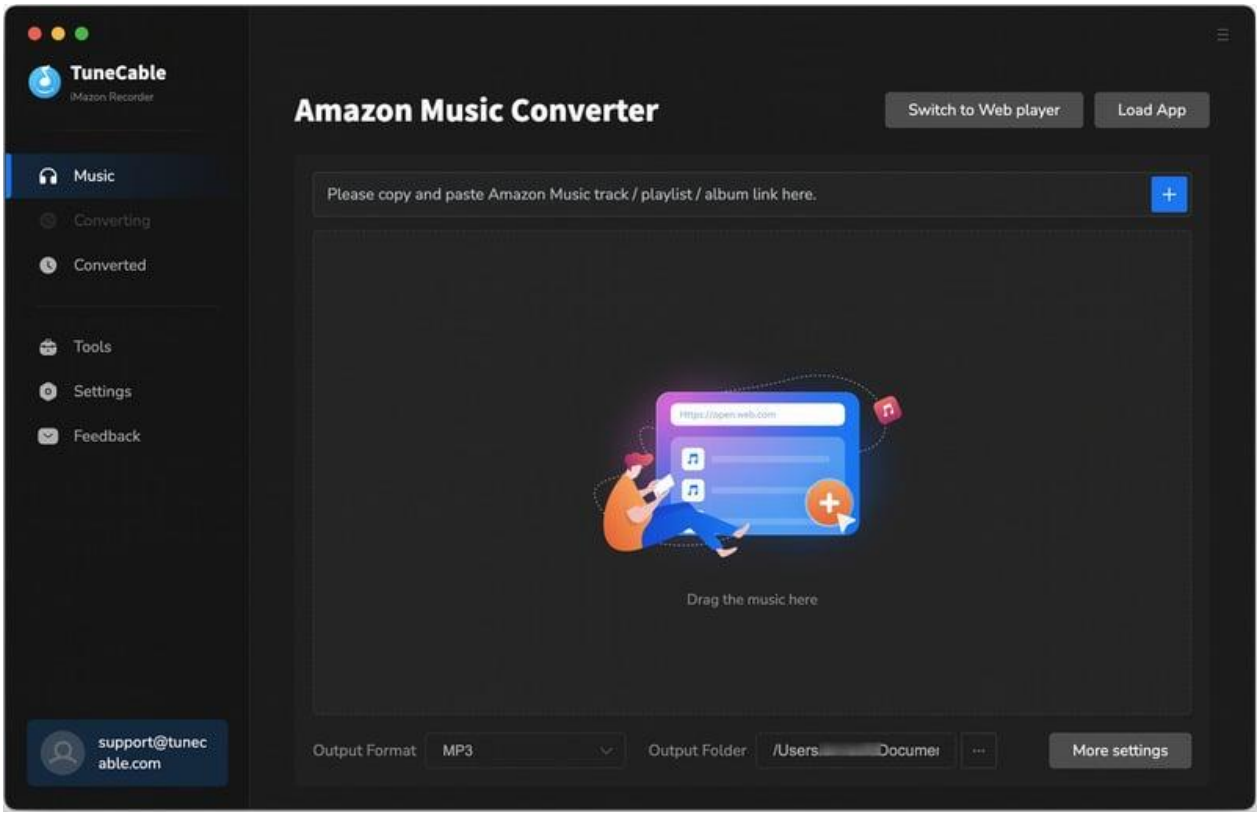
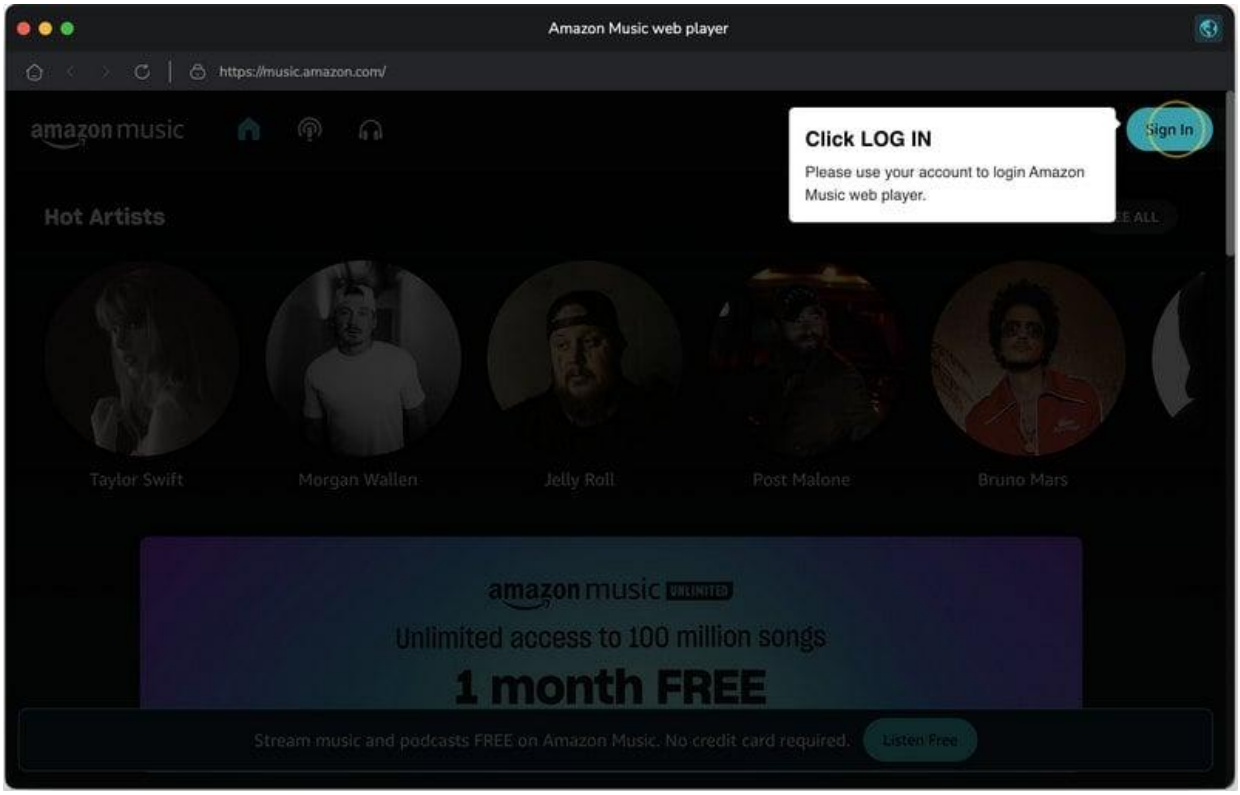
TuneCable iMazon Recorder supports both the Amazon Music app and the web player to work. In this part, we will show the how to download and convert Amazon Music tracks, albums, and playlists. Additionally, we will show you how to use the additional tools with detailed steps.

Download Music from the Music App / Web Player

Step 1. Open TuneCable Mazon Recorder

If you select to download Amazon Music with the app, click **"Switch to App"**, and the Amazon Music app would be opened automatically. If you want to download music from the Amazon Music web player, click **"Switch to Web Player"**. A built-in Amazon Music web player will open automatically. You need to log in to your Amazon Music account.

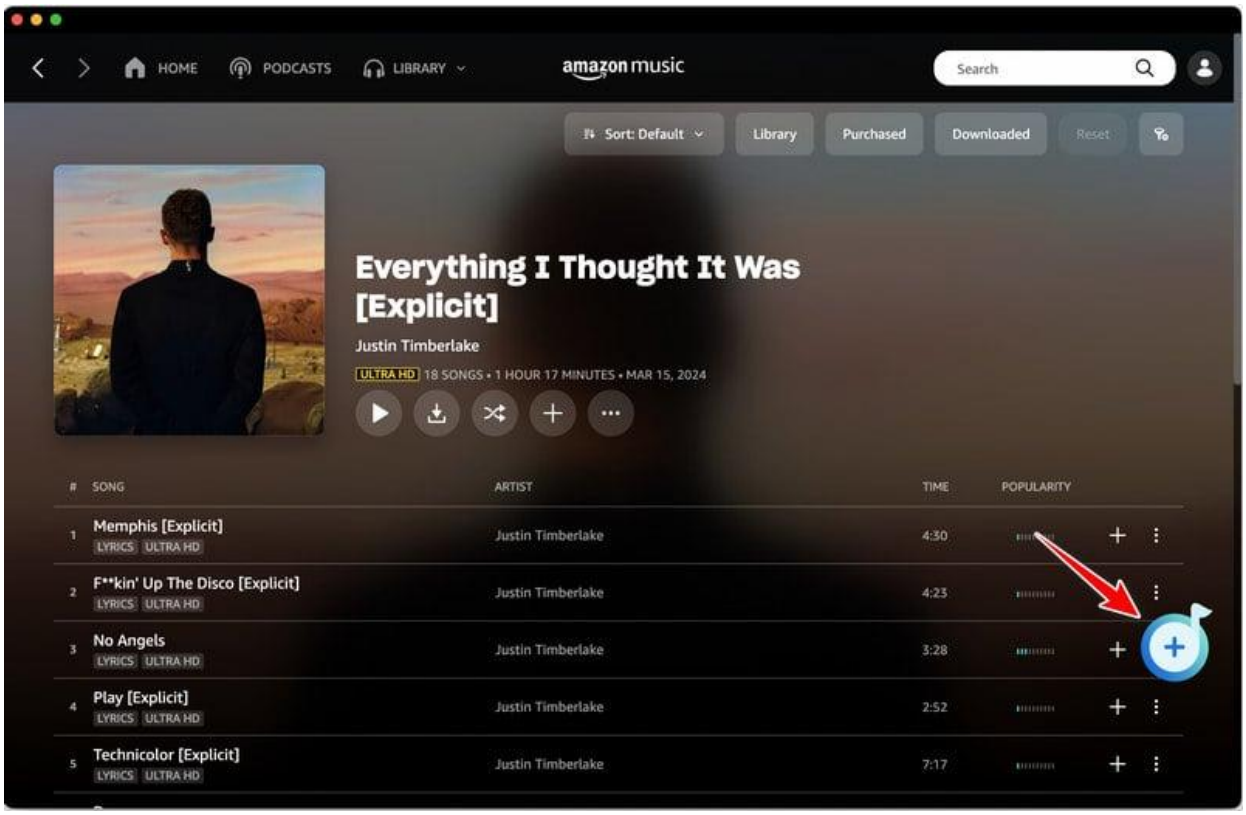




Step 2. Find Preferred Amazon Music Album or Playlist

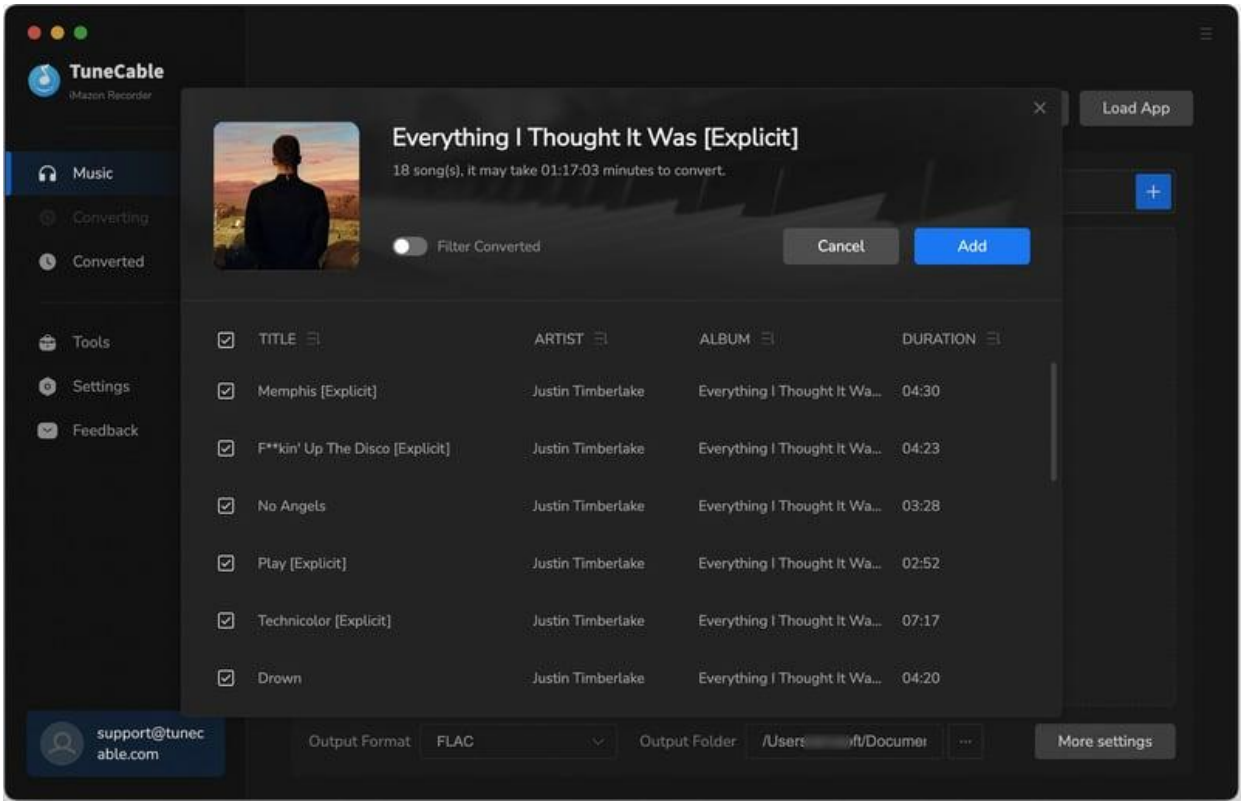
Move to the Amazon Music app or web player, navigate to and open the songs, albums, playlists, or podcasts you want to download, click and hold on to the title, and drag and drop it to TuneCable. The program will then parse and display the tracks. You can load songs using three ways:

- Method 1. Click and hold on to the title, drag and drop it to TuneCable. (Only available when downloading music from the Amazon Music app)
- Method 2. Copy and paste the link into the parse bar and press the Enter key.
- Method 3. Hit the **"Click to add"** button floating in the bottom right of the Spotify Music.



Step 3. Select Amazon Music Tracks

All the available tracks are selected by default. You can deselect the tracks you are not going to save. Then hit the **"Add"** button.



Step 4. Change the Output Settings

Go to the **"Settings"** section in the lower left corner, there you can see the settings panel. Select an output format, sound quality, output path, name output files and classify the files using the provided options. TuneCable has quite flexible settings and provides lots of options.

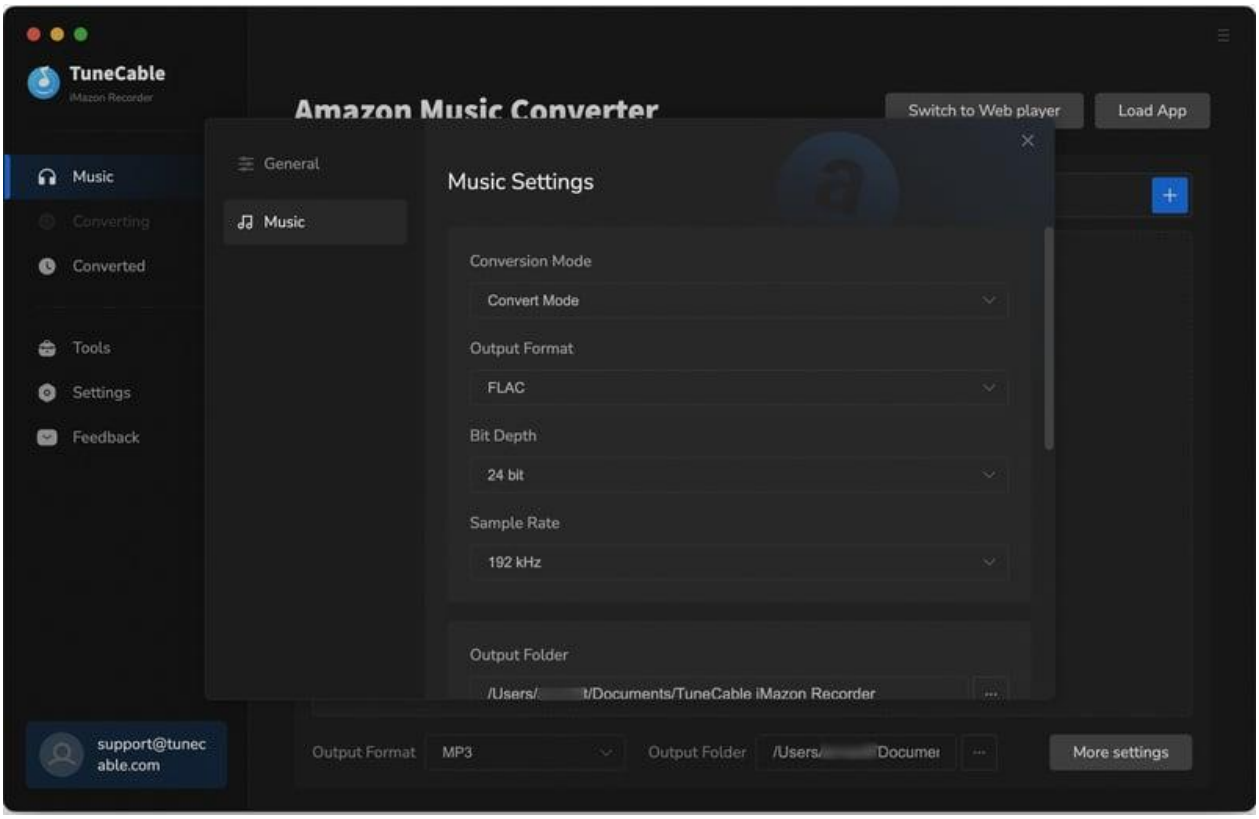
- **Conversion Mode:** Intelligent Mode, Convert Mode, YouTube Mode
- **Output Format:** Auto, MP3, AAC, WAV, AIFF, ALAC, FLAC
- **Bit Rate:** 128kbps, 192kbps, 256kbps, 320kbps (available for MP3, AAC)
- **Bit Depth:** 16 bit, 24 bit (available for WAV, AIFF, ALAC, FLAC)
- **Sample Rate:** 44.1kHz, 48kHz, 96kHz, 192kHz
- **Output Folder:** To your preference
- **Output File Name:** Track Number, Title, Artist, Album, Playlist Index, Year
- **Output Organized:** None, Playlist, Artist, Album, Artist/Album, Album/Artist, Playlist/Artist, Playlist/Album

Note:

1. If you would like to download Amazon Music tracks with the original format and sound quality saved, you may select **"Auto"** as the output format and select **"Convert Mode"** as the conversion mode. TuneCable will save up to **Ultra HD** quality.

2. To download music from Amazon Music app or web player, use **Convert Mode**. If your network connection is unstable, switch to **YouTube Mode** to download the same song from YouTube. **Intelligent Mode** means TuneCable automatically switches between downloading music from Amazon Music app / web player or YouTube based on your network condition.

3. To download playlists in original order, go to TuneCabe's main interface lower left, click **"Settings"**. Under **"Output File Name"**, keep just **"Playlist Index"** and **"Title"**. Then, under **"Output Organized"**, choose **"Playlist"**.



Step 5. Start Converting Amazon Music

Click **"Add More"** when you are going to convert more songs at once. After adding all your target tracks, click the **"Convert"** button and TuneCable would immediately start converting the Amazon Music to the target format at a fast speed.
