Download Music from the Music App / Web Player

TuneCable iMazon Recorder is capable of downloading Amazon Music songs from both the Amazon Music app and the web player. The biggest differences are the highest output quality and conversion speed - downloading music from the Amazon Music app can keep up to Ultra

HD quality at up to 5x the speed downloading music from the Amazon Music web player can save up to HD Amazon songs at up to 10x fast speed.

Step 1. Open TuneCable Mazon Recorder

If you select to download Amazon Music with the app, click "**Switch to App**", and the Amazon Music app would be opened automatically. If you want to download music from the Amazon Music web player, click "**Switch to Web Player**". A built-in Amazon Music web player will open automatically. You need to log in to your Amazon Music account.

Step 2. Find Preferred Amazon Music Album or Playlist

Go through and open your favorite songs, albums, playlists, or podcasts on Amazon Music app. There are three ways to add songs to TuneCable.

- Method 1. Click and hold on to the title, drag and drop it to TuneCable. (Only available when downloading music from the Amazon Music app)
- Method 2. Copy and paste the link into the parse bar and press the Enter key.
- Method 3. Hit the "Click to add" button floating in the bottom right of the Spotify Music.

Step 3. Select Amazon Music Tracks

TuneCable will read and load the songs on a popup. Pick the songs you want and click on "Add" to save them to TuneCable.

Step 4. Change the Output Settings

Before downloading, go to the "**Settings**" module in the lower left corner. Change the settings to your needs, such as output format, sound quality, output folder, etc. Here we list all the options.

- Conversion Mode: Intelligent Mode, Convert Mode, YouTube Mode
- Output Format: Auto, MP3, AAC, WAV, AIFF, ALAC, FLAC
- Bit Rate: 128kbps, 192kbps, 256kbps, 320kbps (available for MP3, AAC)
- Bit Depth: 16 bit, 24 bit (available for WAV, AIFF, ALAC, FLAC)
- Sample Rate: 44.1kHz, 48kHz, 96kHz, 192kHz
- **Output Folder:** To your preference
- Output File Name: Track Number, Title, Artist, Album, Playlist Index, Year
- **Output Organized:** None, Playlist, Artist, Album, Artist/Album, Album/Artist, Playlist/Artist, Playlist/Album

Note:

1. If you select "Auto" as the output format and select "Convert Mode" as the conversion mode, TuneCable will download the songs with the original format and audio quality. And up to Ultra HD quality will be saved.

2. To download music from Amazon Music app or web player, use **Convert Mode**. If your network connection is unstable, switch to **YouTube Mode** to download the same song from YouTube. **Intelligent Mode** means TuneCable automatically switches between downloading music from Amazon Music app / web player or YouTube based on your network condition.

3. To download playlists in original order, go to TuneCabe's main interface lower left, click "Settings". Under "Output File Name", keep just "Playlist Index" and "Title". Then, under "Output Organized", choose "Playlist".

			Output Folder F:\TuneCable Amazon Music Output File Name		58
G	support@tunec able.com		Playlist index × Title × Output Organized ()		

Step 5. Start Converting Amazon Music

Clicking the "Add More" button here will allow you to add more songs too. You can also drag and drop more songs. After adding, click on **"Convert"**, and TuneCable will start downloading the songs at up to **5x** the speed.

Step 6. Check Converted Amazon Music

Once the conversion is completed, click the **"folder icon"** to locate each track. Also, you can click the **"Converted"** tab to find the well-converted music on your local drive.
