To buy a license key for TuneCable Spotify Downloader, please visit its online store:

- ❖ [Purchase TuneCable Spotify Downloader Win](#)
- ❖ [Purchase TuneCable Spotify Downloader Mac](#)

1. Why should I buy TuneCable Spotify Downloader?

TuneCable Spotify Downloader is a shareware. Its trial version only allows you to convert the first 1 minute of each song for sample testing. After purchasing the program, you will be provided with a license to unlock this limitation.

2. What benefits do I have after registration?

- You can enjoy the full functions and features of TuneCable.

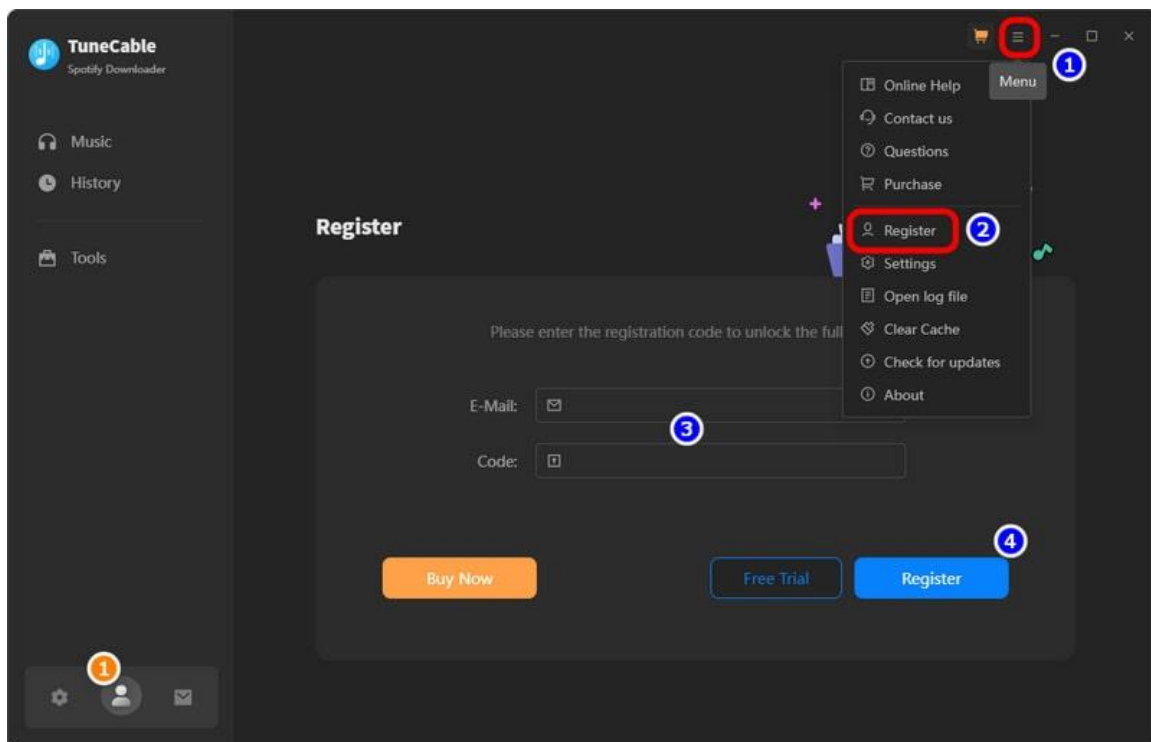

- You can enjoy lifetime FREE updates of the latest versions of TuneCable.
- You can enjoy FREE technical support.

Register TuneCable Spotify Downloader

Step 1. Click on the avatar icon in the lower left of the sidebar. Or click the top-right "**Menu**" button and choose "**Register**" in the drop-down list, and you will get the registration interface.

Step 2. Copy and paste the registration Email and Code into the registration box, and then click the "**Register**" button.

Note: The registration info is case-sensitive. Please do not add a blank at the beginning or the end of the word. Make sure both the Email address and key

code are the same as what we provided in the confirmation email after purchasing the program. If not, an error message will show:

Please enter a valid license code, [or buy a new one.](#)

E-Mail:

Code:

Registration failed. Please copy and paste the code directly from the confirmation email you received. Ensure that you have downloaded the correct program and retry.

- [Tools on TuneCable Spotify Downloader](#)

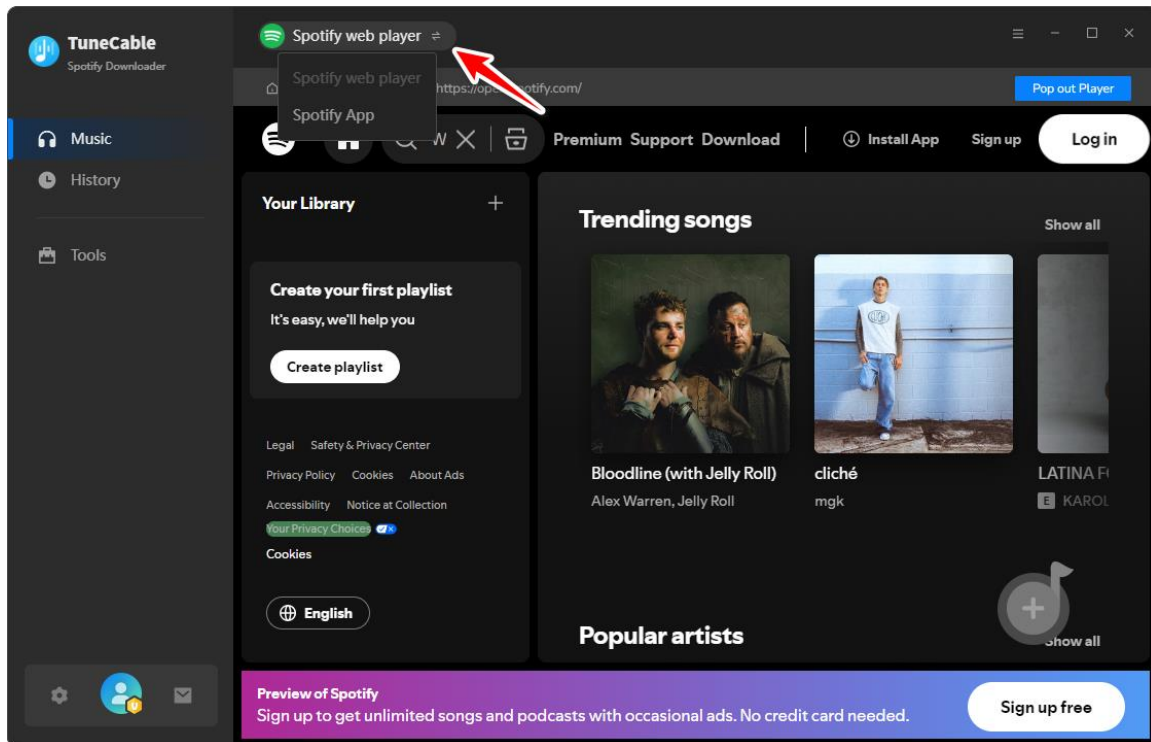

Download Music from the Spotify App / WebPlayer

TuneCable Spotify Downloader supports downloading songs from both the Spotify app and the Spotify web player, preserving the original quality (up to 320kbps). The app mode supports downloading music with up to 320 kbps quality at up to 10x conversion speed.

(Note: When using the Mac version, the Spotify app mode only supports converting music at 1x speed.)

Step 1. Run TuneCable Spotify Downloader

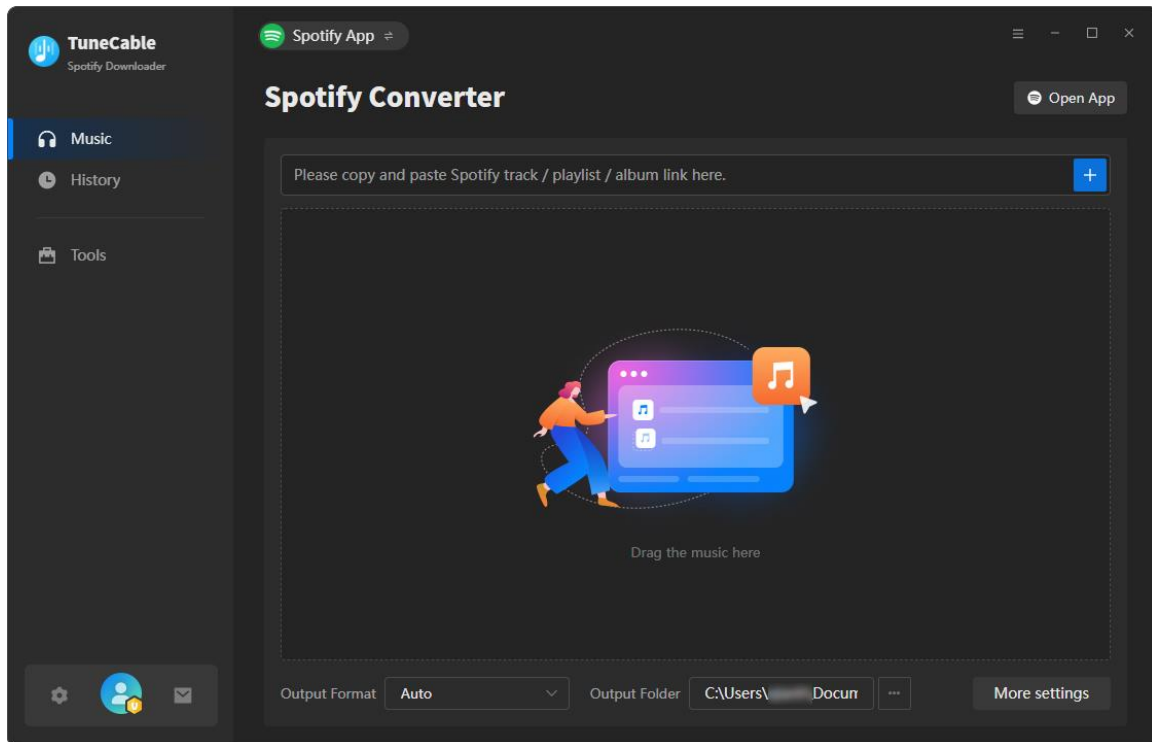

Launch TuneCable Spotify Downloader on your Windows or Mac. Select downloading music from the Spotify app by clicking "**Spotify App**", or downloading music from the web player by clicking "**Spotify web player**" located in the top navigation bar.

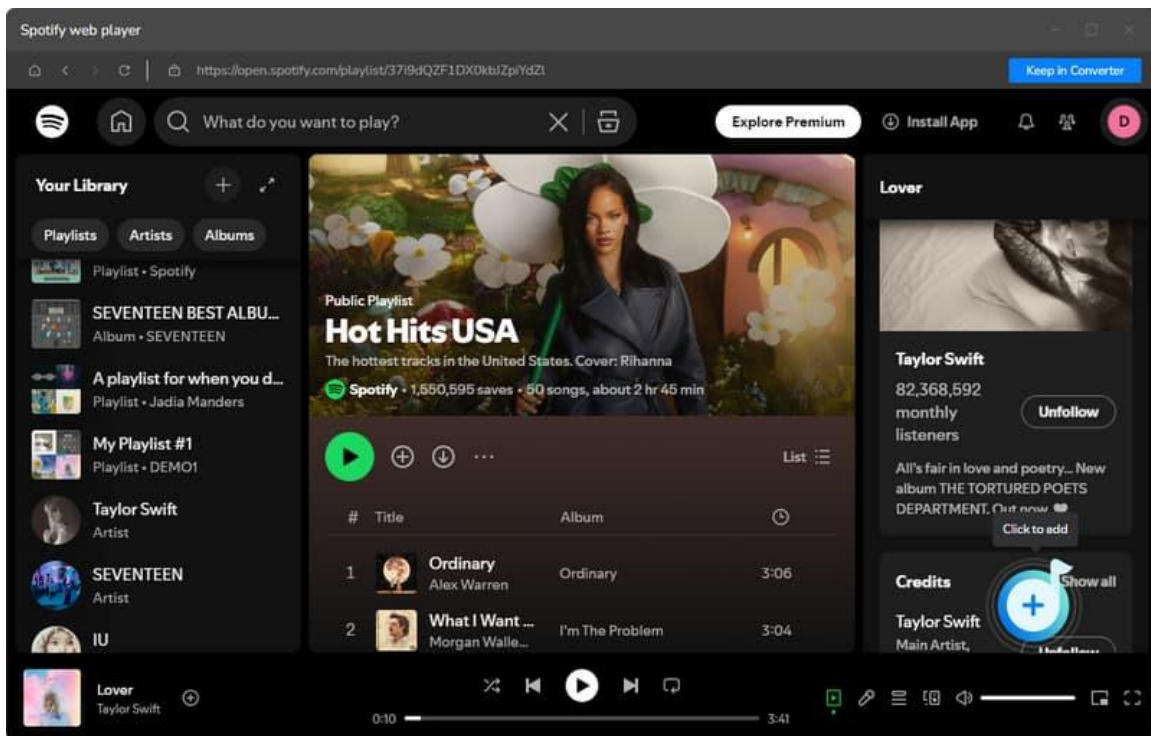

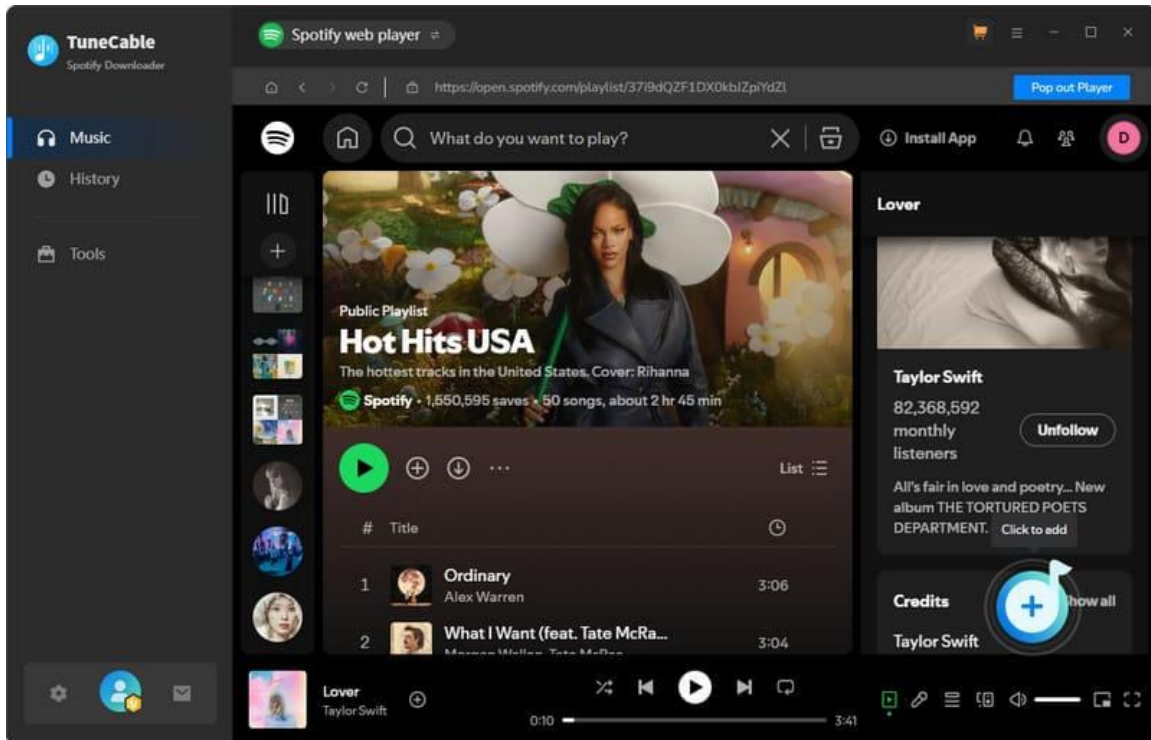

The Spotify app or the built-in Spotify web player will open automatically. You need to sign in to your Spotify account to access the Spotify library. Both free and paid Spotify plans are feasible.

Note:

1. When choosing the "**Spotify App**", it will open automatically. If not, click "**Open App**".

2. When choosing the "**Spotify web player**", the Spotify web player will be embedded in the converter by default. By clicking "**Keep in Converter**" or "**Pop out Player**", you can decide how the web player is located.

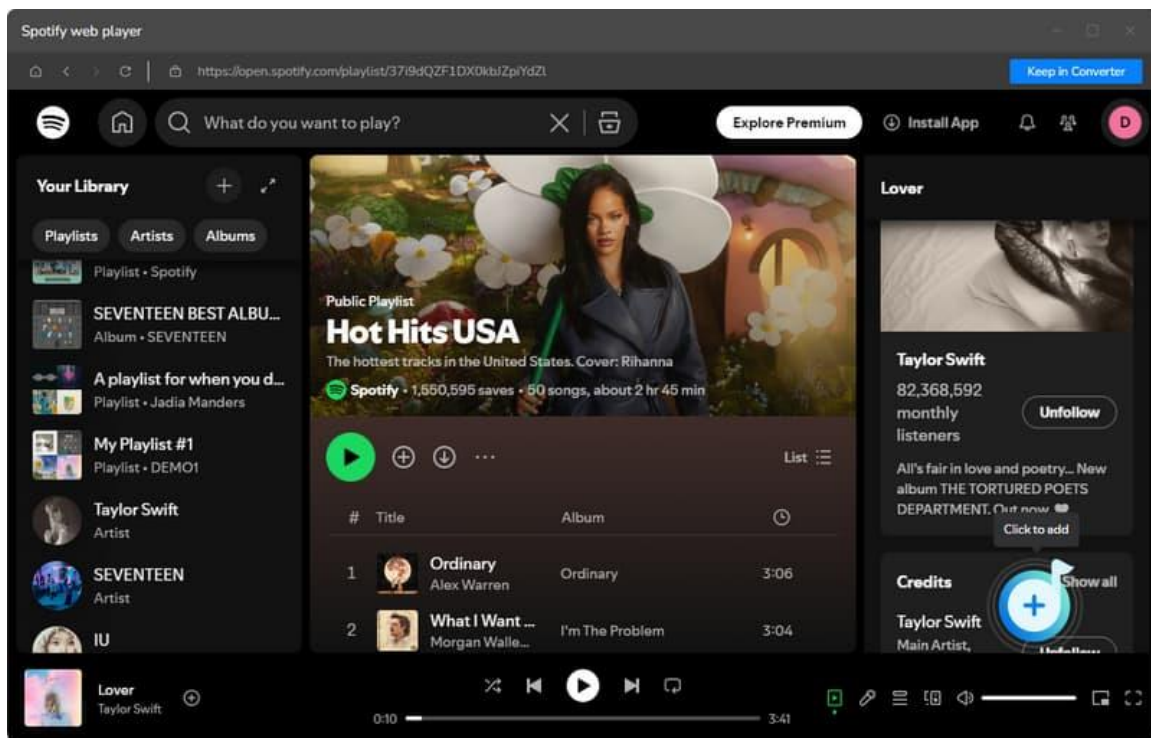

Step 2. Add Spotify Music to TuneCable

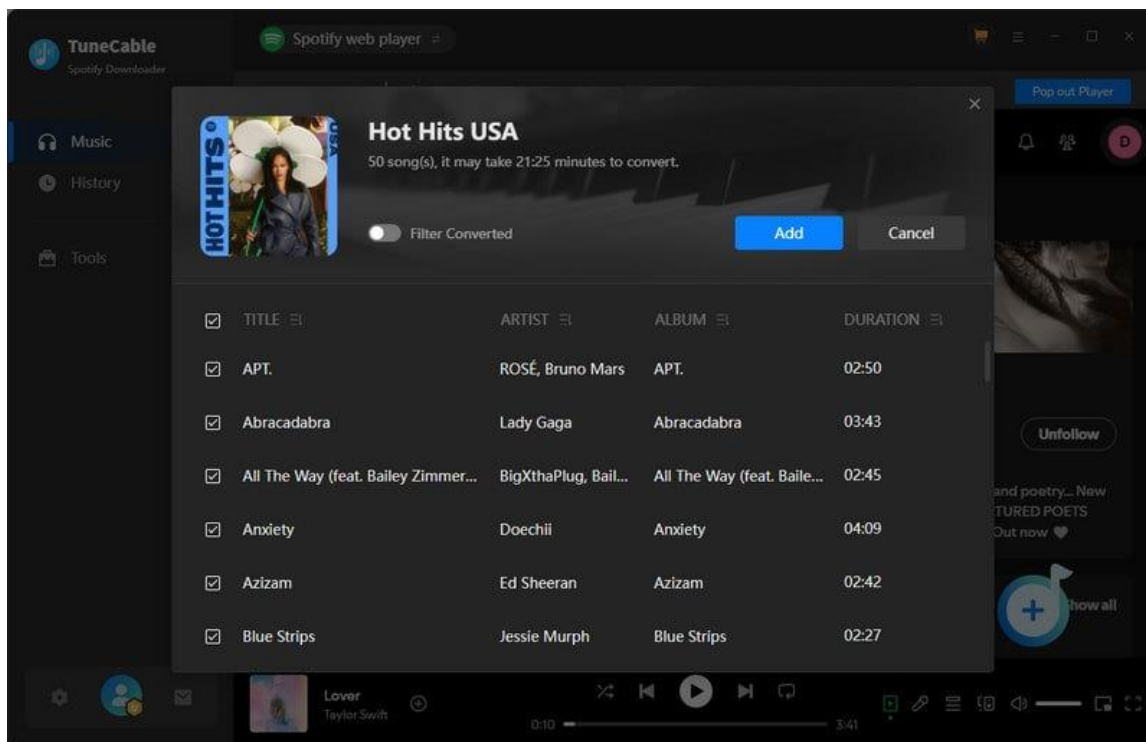

Direct to the Spotify web player or Spotify app and go to find the target Spotify songs, playlists, artists, podcasts, or albums you would like to convert. You are provided three ways to add Spotify tracks.

- You can drag and drop a track or playlist from Spotify to TuneCable directly. (Only available for downloading music from the Spotify app.)
- You can also copy and paste the track's or playlist's link to TuneCable and hit Enter key to parse it. (Only available for downloading music from the Spotify app.)
- Another way is to hit the **"Click to add"** button floating in the bottom right of the Spotify app / web player.

Step 3. Select Spotify Songs to Download

The songs will then be loaded on a popup. Pick the songs and click on **"Add"** to add them to TuneCable.

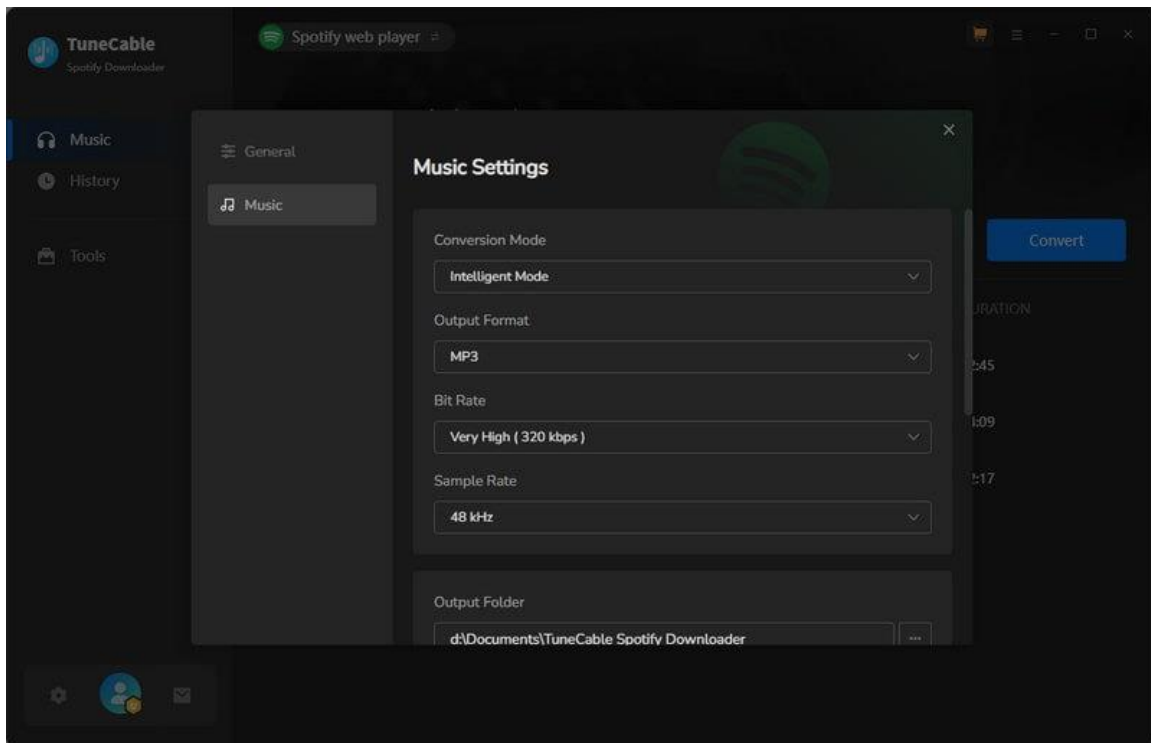

Step 4. Adjust Output Parameters Accordingly

Go to the "**Settings**" interface to choose an output format, sound quality, and other output settings. There are many parameters you can choose from.

- **Conversion Mode:** Intelligent Mode, Record Mode, YouTube Mode
- **Output Format:** Auto, MP3, AAC, WAV, AIFF, ALAC, FLAC
- **Bit Rate:** 128kbps, 192kbps, 256kbps, 320kbps (available for MP3, AAC)
- **Bit Depth:** 16 bit, 24 bit (available for WAV, AIFF, ALAC, FLAC)
- **Sample Rate:** 44.1kHz, 48kHz, 96kHz, 192kHz
- **Conversion Speed:** 1x to 10x (available when downloading music from the Spotify App under Record Mode)
- **Output Folder:** To your preference

- **Output File Name:** Track Number, Title, Artist, Album, Playlist Index, Year
- **Output Organized:** None, Playlist, Artist, Album, Artist/Album, Album/Artist, Playlist/Artist, Playlist/Album

Tips:

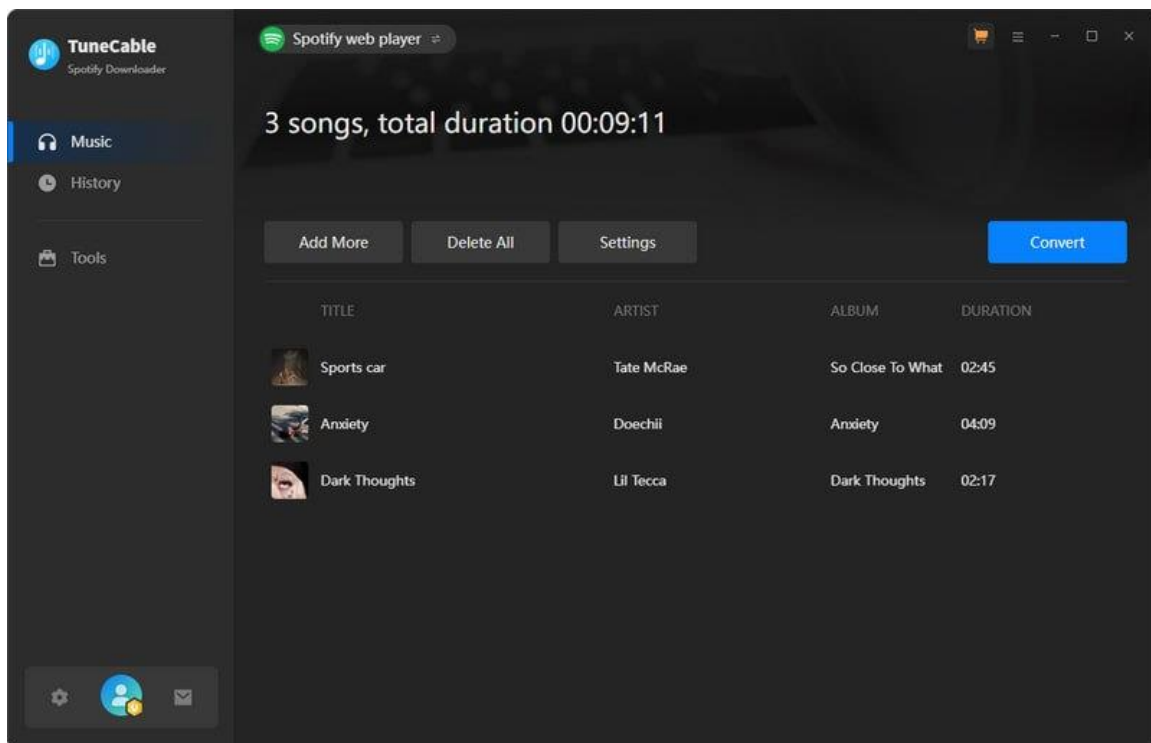

1. If you prefer the source format and the original sound quality, select "**Auto**" from Output Format and "**Record Mode**" from Conversion Mode.
2. To download music from Spotify app or web player, use **Record Mode**. If your network connection is unstable, switch to **YouTube Mode** to download the same song from YouTube. **Intelligent Mode** means TuneCable automatically switches between downloading music from Spotify app / web player or YouTube based on your network condition.

3. To maintain playlist sequence in downloads, navigate to TuneCable's lower left "**Settings**". Under "**Output File Name**", retain "**Playlist Index**" and "**Title**". In "**Output Organized**", select "**Playlist**".

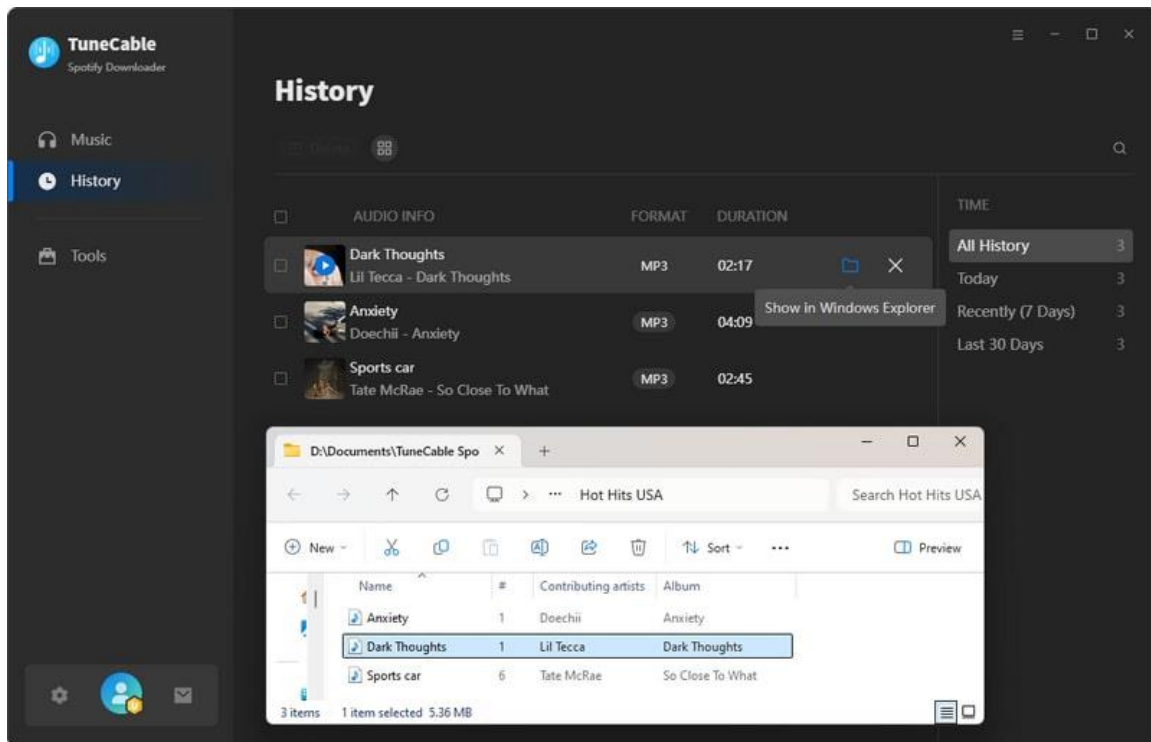

Step 5. Start Converting Spotify Music

If you prefer to add more songs to this batch, click on the "**Add More**" button on this page, and repeat the steps to add more target songs. When finish adding, click the "**Convert**" button to start conversion. And TuneCable will proceed with the songs while preserving the full ID3 tags.

Step 6. View Converted Spotify Music

After the conversion is complete, you can find your converted histories by clicking the "**History**" module. Hit the file icon if you are going to open the output folder.

Tools on TuneCable Spotify Downloader

TuneCable Spotify Downloader offers tools like Export to iTunes, AA/AAX Converter, Format Converter, Audio Editor, and Tag Editor to give you convenient use. To learn detailed instructions, you can check the [Tools guide page](#).
